29 June 1970

MEMORANDUM FOR: Chief, Advanced Technology Branch/RED

SUBJECT :   
Recruitment

1. I called  today and explained the slot situation and the possibility of contract employment. He decided to accept the 7th step of a GS-13. I informed  of his decision. We now must prepare a memorandum justifying the in-step recruitment. Please do same. There is no immediate urgency for this document, but it should be in  hands by 17 July 1970.

2. The memorandum should be to Director of Personnel, through BDI/Admin Staff and signed by Mr. Lundahl.

3. I would still interview other possible candidates for this slot since I suspect  will still be looking for a GS-14.

Chief, Research & Engineering Division,  
TSSG/NPIC
